COURSE ASSIGNMENTS

1. ATTENDANCE/PARTICIPATION

This class is intended to be a dialogue; therefore lecturing will be kept to a minimum. The primary goal of the class is to facilitate the application of concepts rather than the memorization of information. Consequently, assignments are designed accordingly and active class participation is deemed crucial to success. Active class participation requires a thorough reading of any handouts and completion of assignments prior to coming to class.

Should you miss a class, you alone are responsible for any and all missed information. If a student misses **two (2)** class meetings the student's course grade will drop a full letter grade. If a student misses **three (3)** class meetings the student will fail the course (unless there is a justifiable and documented reason). Should an emergency arise (illness, accident, etc.) that prevents you from attending a class session, it is your responsibility to contact the instructors before class. Class participation and engagement is extremely important for this class and you will be graded each week not just on your attendance but also your participation in class activities, quizzes, and discussions.

Absences related to sorority or fraternity events will not be excused. Students that arrive 15 minutes after class has begun or depart 15 minutes before class has been dismissed will be counted as absent.

2. GOING GREEK

Why did you decide to join a sorority and fraternity? This reflective and informative assignment will assist the class in getting to know each other, understanding each person's bond to his/her chapter and to each other through being a sorority or fraternity member at UT Austin.

3. QUIZZES

In order to fully engage in the readings throughout the semester, students will be presented with quizzes to test their learning comprehension.

4. CRITICAL ISSUE PAPER

Students will research and write a paper focused on a critical issue facing the UT Austin sorority and fraternity community. This assignment will be evaluated on both the quality and content of the paper as well as how the issue is examined from the perspective of greek-letter organizations, councils, and the University. Each critical issue must be agreed upon by the instructors of the class for credit to be received.

5. CRITICAL ISSUE PRESENTATION

In small groups, students will lead an in-class presentation about a critical issue facing the UT Austin sorority and fraternity community. Each student will contribute content to this assignment and the expectation is for it to build on the content from the critical issue paper assignment. This assignment will be evaluated on both the quality and content of the presentation as well as how the issue is examined from the perspective of greek-letter organizations, councils, and the University.

6. COMMUNITY IMPACT REFLECTION

Students will participate in a community service project with the entire class. A specific class day has been designated for this project. As a class we will participate, debrief and provide a reflection following the project.

7. CROSS COUNCIL INTERACTION & VAV PERFORMANCE REFLECTION

Students will be asked to immerse themselves in a council event that stretches beyond their own council identity as well as attend a performance on campus on the topic of interpersonal violence. Each cross council event must be agreed upon by the instructors of the class for credit to be received. The VAV performance schedule will be made available to the class when posted to the public. These two reflection opportunities may be shared with the class.

8. LEADERSHIP PACKET

The packet will include the following items to be developed by each student in consultation with the course instructors: a leadership definition, a self-assessment, an action plan and results as well as a leadership journal and next steps.

NOTE: For more detailed information about these assignments please refer to assignments on the class CANVAS site.

1. Leadership Definition

Provide a definition of leadership that resonates with you. This can be your own definition, however if you choose to use someone else's, be sure to cite your source consistent with and according to the format of your choice (i.e. MLA, APA, etc.). Explain why you chose your particular definition of leadership and how you relate it to being a member of your sorority and fraternity, a student at UT Austin, or another connection that drives you to be a leader.

2. Self-Assessment

Provide a candid assessment of your current strengths and areas of growth using the *21 Irrefutable Laws of Leadership*

Please keep in mind the following items as you develop your assessment:

1. You are expected to use six different Laws of Leadership to describe three areas of strength and three areas of growth. With each law, you will describe your use of the law or your desire to grow in a particular law of leadership. Each law should be in paragraph format and seek to fully develop a self-assessment using examples to describe your experiences.
2. Try to be open and honest about your leadership strengths and areas of growth. It will be difficult to improve your leadership skills unless you are straightforward about your current leadership abilities. Remember, no part of this assignment will be shared with others, and only the instructors will have access to your packet.
3. It may be helpful for you to work on this section of the assignment throughout the semester in conjunction with both the readings on different leadership traits and your experiences in your various student organizations.

3. Action Plan

Based on your Self-Assessment, you will create an Action Plan to improve specific areas of your leadership abilities. Your plan should include both what aspects of leadership you wish to improve and how you will practice developing these leadership skills. You can focus on one large opportunity (development of a new program for the community) or multiple smaller opportunities (study groups, class projects, career advancement opportunities, committee meetings/events, etc.). Think of this section as a “How To” for accomplishing the goals that you have set for yourself while being aware of your areas of strength and areas for improvement.

You should also challenge yourself in the goals that you outline.

4. Next Steps

At the end of your Leadership Packet you should outline your plan to continue your own leadership growth and development beyond this course. Understanding your strengths and areas of growth and mapping out a plan is only part of this experience. This section is intended to keep you thinking ahead, articulating the ways you will continue enhancing your leadership development. It is about how you will use your Action Plan to achieve your next steps!

Note: If you have any questions regarding this assignment you are encouraged to meet with one of the instructors.

Grading: Your paper will be graded on the following criteria

Leadership Definition – 3 points

1. Definition and Why?
