

**THIS IS YOUR COURSE SYLLABUS –
KEEP IT HANDY and REFER TO IT OFTEN.**

Welcome to PSY 339!
Behavior Problems of Children
Spring 2010 Unique # 43133
MWF 11:00-11:50 a.m., NOA 1.124

Instructor: Kirsten Bradbury, Ph.D.
Office (Hours): SEAY 4.316 (Hours TBA)
Email: bradbury@psy.utexas.edu

TA: Arianna Stefanatos
Office (Hours): SEAY 3.304 (Hours TBA)
Email: akstefanatos@gmail.com

We are here to help you – please take advantage of our office hours. Come see us!!

Required Text:

Mash & Wolfe (2010). Abnormal Child Psychology (4th ed). ISBN-10: 0-495-50627-3

Additional readings will be assigned and will be made available via Blackboard.

Exams:

There will be five multiple-choice exams. The first four exams will be given during regular class times. Exam 5 is given only during the assigned final exam time for this course. **All** exams are cumulative (cover all previous material from lectures and assigned readings). You are responsible for text material whether or not it is covered in class and for lecture material whether or not it is covered in the text. Information about any curve, dropped items, etc., will be provided following each exam. The top four exam scores are counted, such that we drop your lowest exam grade and each of the remaining four exams is worth **25%** of your grade in the course. There is NO EXTRA CREDIT.

Make-Up Exams: If you miss an exam, and you hope to be allowed to take a make-up exam, you **MUST** show Arianna documentation supporting your request. In most cases of legitimate need to reschedule an exam, documentation is very simple to obtain. Without documentation, you will not be allowed to make up the missed exam but the missed exam grade (a zero) becomes your dropped exam grade.

Attendance:

I expect you to attend class unless you are ill or engaged in activities university policy considers legitimate reasons to miss class (religious observance, required UT activities, etc). Class attendance is *crucial* for doing well in this course (a lot of the exam material comes from my lectures!!). However, attending class is up to your judgment; we do not routinely take attendance.

If you must miss class, we will do everything we can to help you catch up (really!!) – *please* do not come to class sick!

**THIS IS YOUR COURSE SYLLABUS –
KEEP IT HANDY and REFER TO IT OFTEN.**

Grades:

Your course grade is based on your total points score for the four exams on which you did the best. We drop your lowest exam grade. We add together all the points you earned on the remaining four exams, then we divide by 4 to yield a percentage score. This percentage score is represented as a letter grade for the course using the following grade distribution:

A = 92 and up	C+ = 78-79
A- = 90-91	C = 72-77
B+ = 88-89	C- = 70-71
B = 82-87	D = 60-69
B- = 80-81	F = 59 and down

Percentage course grades are calculated to two decimal places and rounded to the nearest whole number, such that, for example, the lowest A- is 89.50 (rounds to 90).

Borderline Grades Stay Borderline: Every semester, some students score just below the borderline of the next highest grade. I have great sympathy for people who find themselves in that position, but I have also found that raising those grades simply uncovers a new group of people whose grades are near the new borderline. This situation makes everybody edgy. Therefore, my policy must be that borderline grades stay as they are. Thus, for example, an 89.49 is a B+. NO EXCEPTIONS.

THERE IS NO EXTRA CREDIT!!!!

IMPORTANT NOTICE:

The University of Texas at Austin provides upon request appropriate academic accommodations for qualified students with disabilities. For more information, contact the Office of the Dean of Students at 471-6259, 471-4641 TTY.

See the Course Calendar for exam dates, lecture topics, and specific reading assignments. In addition to being distributed in class, this syllabus and the course calendar are posted on the class Blackboard page. I typically post lecture slides and exam review notes to Blackboard also.
