## EDP 381 Practicum Seminar, Spring 2017

Meeting Room: SZB 268

<u>Instructor</u>: Aaron Rochlen Ph.D.

Office: SZB 262C

Office Hours: by appointment

Phone: 471-0361

Email: arochlen@austin.utexas.edu

#### Goal of the Course:

The goal of this course is to enhance students' professional development and learning from the practicum experience. The class will be comprised of a discussion of readings, professional issues, and client challenges encountered at the students' practicum sites.

### Requirements:

- 1. <u>Beginning of Semester:</u> Submit Practicum Agreement form and proof of insurance within a week of beginning your practicum. Be sure you have written your supervisor's contact information on this form including e-mail as I will be contacting each supervisor during the term.
- 2. <u>End of Semester:</u> You must have your supervisor complete an online evaluation in order to receive a grade for practicum. If you have more than one practicum (e.g., an assessment practicum that you've arranged for extra income plus a practicum arranged by Rico) you need separate Agreement forms and Evaluation forms for each one. Please submit directly to me.

Evaluation link: https://utaustined.gualtrics.com/jfe/form/SV 6njcRJuwne4ws16

- 3. **Preparation:** Adequate preparation includes required readings and being prepared to thoughtfully discuss clinical and supervision issues in class. Moreover, students should be ready to participate in any skill building role-play activities that will be a part of class and be open to feedback.
- 4. <u>Case Conference:</u> Present 1 formal (written and oral) case 1 informal case conference through the semester. These numbers may be adjusted based on total class enrollment.
- 5. **Readings Facilitation:** Select and facilitate a clinically relevant reading to class with a related role-play ready to facilitate. More information on this will be discussed during class day. Dr. Rochlen will be providing these readings and exercises for weeks in which there are no student presentations.

### Grading:

Grading is on a credit or no-credit basis and is dependent both on performance on practicum as reported by the primary (on site) practicum supervisor, as well as on performance in this seminar. An average of less than "3" on the central items on the practicum evaluation will result in a Fail for the semester. Further, missing class more than 1 time (excused or otherwise) will likely result in a Fail for the semester. In other words, your presence and active involvement is a core part of the class.

## Readings

The reading will be submitted topics/areas of interest that have relevance to students training sites. These will include readings relevant to clinical concerns and topics that may have ideally not been included in other courses. In essence, this is a "coursepack by committee" setup (explained further on first class day). I (Dr. Rochlen) will also be contributing to the weekly readings.

## Assignments

#### Presentation/Readings Assignment:

For this assignment, you will conduct an informal presentation with relevance to your selected reading. The presentation, approximately 1 hour in length, should have an applied focus and interactive component and may include an informal discussion of one of your cases. Please prepare thought questions and/or readings guidance with the article. *This assignment works best if students carefully select the article and how to best facilitate the discussion/exercise.* Ideally your selected article will be: 1) one you are excited about discussing 2) has relevance to your training site or a client 3) easy to facilitate a natural and productive discussion and 4) manageable in length! New to this semester, presentations should include some type of role-play and/or experiential exercise that will be a part of the presentation.

Each student should send an e-mail to all of the other class members the FRIDAY prior to class with the PDF file of the article to all students. It would also be helpful to include recommendations for what aspects of the article may be most relevant 

Please make sure the PDF files are easy to read. If you are having trouble, there is no shame in photocopying these articles and providing copies to each student who will be attending class.

#### **Case Conference Presentations**

You will be asked to do 1 formal case presentations during the semester. You should write up this format and drop it off to the other class members preferably by the Monday preceding your presentation. Importantly, do NOT include names or identifying information in the write-up (initials or a false first name are fine). Place write-up-no longer than 2 pages (single spaced) in a <u>sealed envelope</u>. We will discuss password protected options as an alternative. Assignments for the dates of these presentations will be made during the first week of the semester. Each presentation will be approximately 1 hour in length. Because of confidentiality concerns, *please do not email class members copies of your case conference write-up*. Given the range of different types of settings, there is considerable flexibility in the format of your write-up. However, it is important that you provide a basic overview of the client, your work thus far, and what your most central struggles and questions are with the case. If there is a theoretical framework that you have used, it would be helpful to describe this with your report.

### A suggested framework for your write-up follows:

#### Client overview

- ⇒ number of sessions
- ⇒ sex/age/grade level
- $\Rightarrow$  presenting problem(s)
- ⇒ racial/ethnic background
- ⇒ referral source
- ⇒ pertinent background information (i.e., demographics, family, grades, relationships)
- ⇒ salient behavioral observations
- ⇒ family functioning

### **Treatment Progress**

- ⇒ client's treatment goals
- ⇒ your treatment goals
- ⇒ focus of treatment to date (and progress and struggles)

### Relationship Considerations

- \* Working Alliance Commentary
- \* Multicultural and/or Gender Considerations

#### Questions & Struggles

- \* identify your struggles/questions
- \* transference/counter-transference themes
- \* what are your own reaction(s) to this case (positive or negative?)
- \* what questions are you bringing to the group (i.e., why have you picked this case and what is it you would like most to discuss during your time?)
- \* relevant multicultural considerations are there in this case
- \* relevant gender dynamics and considerations
- \* how have you used theory in this case (and what questions you might have for the group)

### Follow Up Presentations:

Students will be asked to give *1 informal follow-up oral presentations* - after their formal write-ups (oral overviews). The purpose of these presentations will be to talk about progress and/or interventions initiated in an informal manner with peers and the instructor. These will be roughly 30-45 minutes in length.

<u>Individual Meetings</u>: In lieu of having class on March 28<sup>th</sup>, individual 20 minute appointments will be arranged. During these meetings, a discussion of each student's goals, participation in class, and any other concerns will be shared. This is a good opportunity to discuss problems that may have developed in your current practicum placement as well as concerns that need to be addressed with your supervisor.

#### ADA Compliance:

The University of Texas at Austin provides upon request appropriate academic accommodations for qualified students with disabilities. To determine if you qualify, please contact the Dean of Students at 471-6259, 471-4641 TTY. If they certify your needs I will work with you to make appropriate arrangements. These arrangements should be made at or prior to the beginning of the term.

# Observance of Religious Holidays:

In conformance with University policy, I respect students' observation of religious holidays and will make an effort to work with students around observance of any religious holidays that conflict with class or class activities. It is the student's responsibility to look over the syllabus during the first week of class and determine if they forsee a problem with the ability to complete assignments when due or to be present in class
