Symposia Organized at National Research Conferences

Meet the editors of educational psychology journals. Conversation hour at the annual meeting of the American Psychological Association, New Orleans, LA, August, 2006.

The prevalence of causal conclusions in non-experimental research articles in educational psychology journals in 1994 and 2004. Symposium presented at the annual meeting of the American Educational Research Association, San Francisco, CA, April, 2006.

Educational psychology journals: Who's publishing, who's editing, and the decline in intervention and experimental research. Symposium presented at the annual meeting of the American Educational Research Association, San Diego, CA, April, 2004.

Royal rumble II: An empirical approach to resolving points of disagreement concerning statistical significance testing. Symposium presented at the annual meeting of the American Educational Research Association, Montreal, April, 1999.

Royal rumble I: A no-holds-barred, tag-team debate over the statistical significance testing controversy. Symposium presented at the annual meeting of the American Educational Research Association, San Diego, CA, April, 1998.

Publishing, reviewing, and editing articles in educational psychology: Comments from editors on the state of the field. Panel discussion at the annual meeting of the American Educational Research Association, Chicago, IL, April, 1997.

Which adjunct displays help students learn best? A comparison of the effectiveness of researcher-constructed displays. Symposium presented at the annual meeting of the American Educational Research Association, New York, NY, April, 1996.

Which text mapping system is best? Competing researchers create their own maps from the same text. Symposium presented at the annual meeting of the American Educational Research Association, New Orleans, LA, April, 1994.

Papers Presented at National Research Conferences

Funded Awards and Grants

Received a Big XII Faculty Fellowship from the University of Texas for $1,500 to support a visit to the School of Information Science and Learning Technologies at the University of Missouri, 2010.

Received a Big XII Faculty Fellowship from the University of Texas for $2,000 to support a visit to the Department of Special Education at the University of Colorado, 2008.

Co-Director (with Sharon Vaughn and Herb Rieth) on a Postdoctoral Research Training Fellowship Program in Special Education from the Institute of Educational Science for $800,000, 2008-2012.

Received a Big XII Faculty Fellowship from the University of Texas for $1,000 to support a visit to the Department of Special Education at the University of Kansas, 2006.

Received a Deans Fellowship from the University of Texas College of Education for $33,500 to conduct research during the 2006-2007 academic year.

Received a Vision Award from the University of Texas College of Education for $3,000 to hire a student-technologist (200 hours @ $13.75 per hour) and purchase software ($250) to develop a web-based testing program to provide individual item feedback during 2005.

Received a Faculty and Student Teams for Technology grant for $1,000 to hire a student-technologist (100 hours @ $10.00 per hour) during 2005. Titled, "Incorporating learning tools and adding resources into instructor websites."

Received a Big XII Faculty Fellowship from the University of Texas for $2,000 to support a visit to the Department of Counseling and Educational Psychology at Kansas State University, 2004.

Received a Vision Award from the University of Texas College of Education for $3,000 to hire a student-technologist (200 hours @ $13.75 per hour) and purchase software ($250) to develop web-based multimedia tools during 2003.

Received a Big XII Faculty Fellowship from the University of Texas for $1,800 to support a visit to the Department of Curriculum and Instruction at Iowa State University, 2002.

Received a Dean's Faculty Technology Integration Award from the University of Texas College of Education for $8,000 to purchase hardware and software ($5,000), hire a research assistant ($2,000), and travel to a conference ($1,000) during 2002.

Received a Faculty and Student Teams for Technology grant for $1,000 to hire a student-technologist (100 hours @ $10.00 per hour) during 2000. Titled, "Creating Course Web Pages for EDP 371 and ALD 320."

Received a Big XII Faculty Fellowship from the University of Texas for $2,500 to support a visit to the Department of Educational Psychology at the University of Nebraska, 2000.

Awarded a Summer Research Assignment from the University of Texas for $7,250 during the summer of 2000.

Received a faculty development award from the University of Louisville for $649 during the spring semester, 1999. Used funds to bring in a guest speaker and purchase food and refreshments for a program on faculty mentoring.

Received a faculty development initiative from the University of Louisville for $1,500 during the spring semester, 1999. Used funds to conduct an assessment of EDFD 600, Introduction to Research and Statistics.

Awarded an Intramural Research Incentive Grant from the University of Louisville for $3,825 during the spring semester, 1999. Used funds to pay a full-time graduate assistant for five months.

Consulting Activities

Worked as an evaluator for the San Antonio Zoo, 2006 to 2008.

Worked one-fifth time (eight hours per week) and summers as an evaluation consultant for Cisco Systems, 2003 to present. Evaluated the Networking Academy's online curriculum and the Global Learning Network initiative in public schools and community colleges.

Worked one-quarter time (10 hours per week) as a research consultant for the Writing for Thinking Project at Mississippi State University for the spring semester, 1994. This time was taken from my normal research time. I earned $4,125 for the department part of which (est. $2,400) was used to purchase a computer, laser printer, and software for my office.

Worked one-quarter time (10 hours per week) as a research consultant for the Research Curriculum Unit for Vocational Education at Mississippi State University for the fall semester, 1994. This time was taken from one course I was originally assigned to teach. I earned $4,401.38 for the department part of which (est. $1,100) was used to pay an adjunct faculty member to teach the course and (est. $2,300) for travel to research conferences.

Mentoring and Exchange of Ideas – Road Trips

Beginning in Fall 2004, I began an effort to establish a network of universities within driving distance of UT by inviting faculty and graduate students in learning/cognition to visit UT to present their research and also to host a few of us for similar purposes. Our first trip was to Texas Tech University and involved myself and a graduate student, Michael Sweet. The following Spring, 2005, Steve Crooks, a professor at Texas Tech, visited UT. Since that time, various grad students and myself have visited the University of North Texas, UT San Antonio, Texas A&M, and Baylor. In the fall of 2006, I received a Big 12 faculty fellowship to spend a week at the University of Kansas. I invited three graduate students to make the trip with me - Michael Sweet, Taylor Acee, and Josh Walker. We visited the University of Oklahoma and Wichita on our way to Lawrence. We also took a day trip and visited Kansas State University. Each time, students were able to meet with other faculty and grad students to discuss exchange of research interests. I believe these road trips are beneficial to both faculty and students. I cover travel and lodging expenses for the students and they are simply responsible for their meals and incidentals on the trips. For our trip to Texas A&M in Spring of 2008, for example, I paid for three hotel rooms.
